Natural disasters in recent years have brought the study of disaster resiliency to the forefront. The importance of community preparedness and sustainability has been underscored by such calamities as Hurricane Katrina in 2005 and the Japanese tsunami in 2011. Natural disasters will inevitably continue to occur, but by understanding the concept of resiliency as well as the factors that lead to it, communities can minimize their vulnerabilities and increase their resilience.?

In this volume, editors Naim Kapucu, Christopher V. Hawkins, and Fernando I. Rivera gather an impressive array of scholars to provide a much needed re-think to the topic disaster resiliency. Previous research on the subject has mainly focused on case studies, but this book offers a more systematic and empirical assessment of resiliency, while at the same time delving into new areas of exploration, including vulnerabilities of mobile home parks, the importance of asset mapping, and the differences between rural and urban locations. Employing a variety of statistical techniques and applying these to disasters in the United States and worldwide, this book examines resiliency through comparative methods which examine public management and policy, community planning and development, and, on the individual level, the ways in which culture, socio-economic status, and social networks contribute to resiliency. The analyses drawn will lead to the development of strategies for community preparation, response, and recovery to natural disasters.

Combining the concept of resiliency, the factors that most account for the resiliency of communities, and the various policies and government operations that can be developed to increase the sustainability of communities in face of disasters, the editors and contributors have assembled an essential resource to scholars in emergency planning, management, and policy, as well as upper-level students studying disaster management and policy.

#### **Teresa Burns:**

Reading a reserve tends to be new life style with this era globalization. With examining you can get a lot of information that will give you benefit in your life. Together with book everyone in this world can share their idea. Guides can also inspire a lot of people. A great deal of author can inspire their very own reader with their story as well as their experience. Not only the storyplot that share in the textbooks. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors in this world always try to improve their skill in writing, they also doing some study before they write on their book. One of them is this Disaster Resiliency: Interdisciplinary Perspectives (Routledge Research in Public Administration and Public Policy).

#### **Sabrina Crockett:**

As a university student exactly feel bored to reading. If their teacher asked them to go to the library or make

summary for some reserve, they are complained. Just tiny students that has reading's internal or real their pastime. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that looking at is not important, boring as well as can't see colorful images on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Disaster Resiliency: Interdisciplinary Perspectives (Routledge Research in Public Administration and Public Policy) can make you sense more interested to read.
