Su-un and His World of Symbols: The Founder of Korea's First Indigenous Religion Paul Beirne

Su-un and His World of Symbols explores the image which Choe Che-u (Su-un), the founder of Donghak (Eastern Learning) Korea's first indigenous religion, had of himself as a religious leader and human being. Su-un gave his life so that he could share his symbols, his scriptures and the foundational principals of his religion with all people, regardless of their status, gender, age or education. His egalitarian creed challenged the major religious traditions in Korea, and Korean society as a whole, to reflect on the innate dignity of each individual, and to reform their social, ethical and religious practices to accord with the reality of the Divine presence in the 'sacred refuge' that lies within. Exploring the two symbols which Su-un created and used to disseminate his religion, and the two books of Scripture which he composed, this book breaks new ground by presenting the only major work in English which attempts to ascertain the image Su-un had of himself as the prototype of a new kind of religious leader in Korea, and by extension, East Asia.
