T. F. Torrance was one of the most significant English-language theologians of the 20th century known extensively for his curatorship of the English translation of Barth's Church Dogmatics but also for his own prodigious theological scholarship. The complexity and astonishing breadth of Torrance's output, however, have made assessment and appropriation markedly difficult. This volume seeks to rectify that lack of assessment through careful exposition of the vital centers and interconnections within Torrance's theology alongside constructive appraisal and critique of his contributions to contemporary theology.
