Utopia of Usurers

Utopia of Usurers G.K. Chesterton, Aidan Mackey

An engaging work sure to appeal to both scholars and students for the depth of its thought and the freshness of its claims, this is a two-part book by one of the 20th century's greatest writers. The first part is a coherent analysis of the theory, effects, and claims of capitalism. The second is a lengthy collection of articles from Chesterton's vast journalistic output. The author challenges the fundamental tenets of capitalism without favoring socialism or Marxism by providing a philosophical analysis of the pitfalls, drawbacks, and falsehoods regarding capitalism and its inevitability. This is must reading for any serious investigation into anti-capitalist thought. It is also an exemplary text of how Christian principles and thinking apply to the socioeconomic world.
