The Human Brain During the Early First Trimester: 5 (Atlas of Human Central Nervous System Development)

Shirley A. Bayer, Joseph Altman

Migratory paths of neurons in the early-maturing regions of the brain and the formation of the earliest fiber tracts

Finally, a concluding essay with illustrations and graphs summarizes the major events of human CNS development. It also provides a theoretical account of the morphogenetic processes involved in human CNS development and relates them to current genetic and molecular research in animal models.

This atlas is also available as part of a five volume set.
