Power, the State, and Sovereignty: Essays on International Relations

Stephen D. Krasner

Power, the State, and Sovereignty: Essays on International Relations Stephen D. Krasner

Stephen Krasner has been one of the most influential theorists within international relations and international political economy over the past few decades. *Power, the State, and Sovereignty* is a collection of his key scholarly works. The book includes both a framing introduction written for this volume, and a concluding essay examining the relationship between academic research and the actual making of foreign policy.

Drawing on both his extensive academic work and his experiences during his recent role within the Bush administration (as Director for Policy Planning at the US State department) Krasner has revised and updated all of the essays in the collection to provide a coherent discussion of the importance of power, ideas, and domestic structures in world politics.

Progressing through a carefully structured evaluation of US domestic politics and foreign policy, international politics and finally sovereignty, this volume is essential reading for all serious scholars of international politics.
