Historical Dictionary of Taoism (Historical Dictionaries of Religions, Philosophies, and Movements Series)

Julian F. Pas

Historical Dictionary of Taoism (Historical Dictionaries of Religions, Philosophies, and Movements Series) Julian F. Pas

Taoism is often described as the smallest and least known of China's historical 'Three Teachings,' which also include Confucianism and Buddhism. This book provides a readable overview while simultaneously giving sufficient detail about the intricate and beautiful complexities of Taoism. A lengthy introduction deals with the historical development of Taoism, including its current situation within the world. It outlines the basic teachings, concepts, and writings, and also describes their historical significance. It also presents viewpoints on the crucial debate concerning whether Taoism is a religion, a philosophy or both. The dictionary section of the book presents the concepts, persons, rituals, beliefs, and historically significant events of Taoism in great detail. The entries move fluidly between current teachings in Taoism and their historical antecedents. Also included is a helpful chronology of Taoist history as well as notes on the romanization of Chinese. This book should not be overlooked by those who want a full study of this influential philosophical system.
