Summum Unum. The Diversity Of Life Gebhard Deissler

Scientific Essay from the year 2010 in the subject Cultural Studies - Miscellaneous, , course: Interkulturelles Management, language: English, abstract: The summum really is life itself, nothing can be added to it. Out of its bosom emerges the infinity of diversity. In it all diversity remains united, however diverse it may be. If the manifestations of the one as the many cannot be solved satisfactorily, a return to the one or the memory of the one is necessary to recreate the unity which is still latent in diversity and in which it can remerge and reintegrate and effect individual, social and global integrity. The Supreme One, Summum Unum, call it God, Verbum, Way, Truth or Life reigns supremely over the diversity which it has produced. The rediscovery of life as the universal integrator can be a supreme cultural panacea, simple because all comes from it and is contained in it. Nothing that lives is outside of it. Everything converges in it, has its place in it. The relearning of the way of life itself, the retuning to it naturally integrates the diversity it has produced. All diversity has been, is and will be integrated in life. The more culture comes to the fore, the more life must be affirmed as the unifier of cultural diversity. True diversity management consists in the appropriate management of the one, its effective leverage, because diversity only is its outer appearance.
