Biofuels from Algae: Chapter 12. Scale-Up and Commercialization of Algal Cultivation and Biofuel Production Man Kee Lam, Keat Teong Lee

Algae are currently being considered as a versatile feedstock for biofuel production because of their fast growth rate and high biomass productivity. Algae could simultaneously act as a carbon sink and water purifier if their cultivation were coupled with flue gas and wastewater treatment, respectively. Hence, an understanding of the overall supply chains for algal biofuel production is exceptionally important to determine whether it is worthwhile to scale up and commercialize algal cultivation for biofuel production. In this chapter, various aspects and constraints associated with the commercialization of algal biofuels are deliberated in detail, especially from the perspective of life-cycle energy balance. In addition, discussions on the economic assessments of algal biofuels are included in this chapter to provide an overview of the current state of algal biofuels in the fuel market. Potential algal biofuel conversion technologies, such as transesterification, starch hydrolysis and fermentation, pyrolysis, and hydrothermal liquefaction are also presented.

From reader reviews:

Alicia Gentry:

This book untitled Biofuels from Algae: Chapter 12. Scale-Up and Commercialization of Algal Cultivation and Biofuel Production to be one of several books in which best seller in this year, this is because when you read this reserve you can get a lot of benefit in it. You will easily to buy this kind of book in the book retailer or you can order it by using online. The publisher on this book sells the e-book too. It makes you quickly to read this book, since you can read this book in your Smartphone. So there is no reason for you to past this book from your list.

Evita Young:

A lot of people always spent all their free time to vacation or go to the outside with them household or their friend. Are you aware? Many a lot of people spent they free time just watching TV, or perhaps playing video games all day long. If you want to try to find a new activity this is look different you can read some sort of book. It is really fun to suit your needs. If you enjoy the book that you simply read you can spent 24 hours a day to reading a e-book. The book Biofuels from Algae: Chapter 12. Scale-Up and Commercialization of Algal Cultivation and Biofuel Production it is rather good to read. There are a lot of people that recommended this book. These people were enjoying reading this book. If you did not have enough space to deliver this book you can buy the e-book. You can m0ore effortlessly to read this book through your smart phone. The price is not to cover but this book has high quality.

Catherine Rubio:

Reading a book to get new life style in this yr; every people loves to examine a book. When you examine a book you can get a large amount of benefit. When you read ebooks, you can improve your knowledge, since book has a lot of information into it. The information that you will get depend on what kinds of book that you have read. If you want to get information about your research, you can read education books, but if you want to entertain yourself read a fiction books, these kinds of us novel, comics, along with soon. The Biofuels from Algae: Chapter 12. Scale-Up and Commercialization of Algal Cultivation and Biofuel Production provide you with a new experience in reading a book.

Mary Redus:

As a university student exactly feel bored to help reading. If their teacher questioned them to go to the library or make summary for some book, they are complained. Just small students that has reading's heart or real their passion. They just do what the educator want, like asked to the library. They go to right now there but nothing reading significantly. Any students feel that reading through is not important, boring and can't see colorful pics on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Biofuels from Algae: Chapter 12. Scale-Up and Commercialization of Algal Cultivation and

Biofuel Production can make you feel more interested to read.
