Competition, Choice, and Incentives in Government Programs (IBM Center for the Business of Government) John M. Kamensky, Albert Morales

Since the 1980s, the language used around market-based government has muddied its meaning and polarized its proponents and critics, making the topic politicized and controversial. *Competition, Choice, and Incentives in Government Programs* hopes to reframe competing views of market-based government so it is seen not as an ideology but rather as a fact-based set of approaches for managing government services and programs more efficiently and effectively.
