Nuclear Medicine and PET/CT: Technology and Techniques

Kristen M. Waterstram-Rich, Paul E. Christian

Nuclear Medicine and PET/CT: Technology and Techniques Kristen M. Waterstram-Rich, Paul E. Christian

A comprehensive guide to procedures and technologies, **Nuclear Medicine and PET/CT: Technology and Techniques** provides a single source for state-of-the-art information on all aspects of nuclear medicine. Coverage includes relevant anatomy and physiology and discusses each procedure in relation to the specific use of radiopharmaceuticals and the instruments required. Edited by experts in nuclear imaging and PET/CT, Paul E. Christian and Kristen M. Waterstram-Rich, this edition has a new chapter on MRI as it relates to nuclear medicine and includes practical, step-by-step instructions for procedures.

- **PET/CT focus with hybrid PET/CT studies** in several chapters provides cutting-edge information that is especially beneficial to working technologists.
- **CT Physics and Instrumentation chapter** introduces CT as it is applied to PET imaging for combined PET/CT studies.
- **Authoritative, comprehensive resource** conveys state-of-the-art information, eliminating the need to search for information in other sources.
- **Foundation chapters** cover basic math, statistics, physics, instrumentation, computers, lab science, radiochemistry, and pharmacology, allowing you to understand how and why procedures are performed.
- **Accessible writing style and approach to basic science subjects** simplifies topics, progressing from fundamentals to more complex concepts.
- **More than 50 practice problems** in the math and statistics chapter let you brush up on basic math skills, with answers provided in the back of the book.
- **Key terms, chapter outlines, learning objectives, and suggested readings** help you organize your study.
- **A table of radionuclides used in nuclear medicine and PET** is provided in the appendix for quick reference.
- **A glossary** provides definitions of key terms and important concepts.
- **High-profile editors and contributors** come from a variety of educational and clinical settings, providing a broad philosophic and geographic perspective.
- **New MRI Physics, Instrumentation and Clinical Introduction chapter** provides important background on MRI and its relationship with nuclear medicine.
- **Procedures boxes** in body systems chapters provide step-by-step descriptions of clinical procedures.
- **Updates and revisions** keep you current with the latest advances.
- **Expanded 16-page color insert** includes more diagnostic images demonstrating realistic scans found in practice.

From reader reviews:

Debbie Jones:

That e-book can make you to feel relax. This specific book Nuclear Medicine and PET/CT: Technology and Techniques was multi-colored and of course has pictures on there. As we know that book Nuclear Medicine and PET/CT: Technology and Techniques has many kinds or style. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and think that you are the character on there. Therefore , not at all of book are generally make you bored, any it makes you feel happy, fun and unwind. Try to choose the best book for you and try to like reading that.

Patricia Glover:

As a pupil exactly feel bored for you to reading. If their teacher expected them to go to the library or make summary for some e-book, they are complained. Just tiny students that has reading's spirit or real their passion. They just do what the professor want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that examining is not important, boring along with can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Nuclear Medicine and PET/CT: Technology and Techniques can make you truly feel more interested to read.

Beatrice Raybon:

Guide is one of source of expertise. We can add our know-how from it. Not only for students and also native or citizen need book to know the revise information of year to year. As we know those books have many advantages. Beside all of us add our knowledge, also can bring us to around the world. From the book Nuclear Medicine and PET/CT: Technology and Techniques we can consider more advantage. Don't you to be creative people? For being creative person must choose to read a book. Merely choose the best book that acceptable with your aim. Don't end up being doubt to change your life at this book Nuclear Medicine and PET/CT: Technology and Techniques. You can more inviting than now.

Donald Foster:

Reading a reserve make you to get more knowledge from this. You can take knowledge and information from your book. Book is written or printed or illustrated from each source which filled update of news. On this modern era like today, many ways to get information are available for a person. From media social similar to newspaper, magazines, science guide, encyclopedia, reference book, novel and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just searching for the Nuclear Medicine and PET/CT: Technology and Techniques when you desired it?
