*Splintering Urbanism* makes an international and interdisciplinary analysis of the complex interactions between infrastructure networks and urban spaces. It delivers a new and powerful way of understanding contemporary urban change, bringing together discussions about:

- \*globalization and the city
- \*technology and society
- \*urban space and urban networks
- \*infrastructure and the built environment
- \*developed, developing and post-communist worlds.

With a range of case studies, illustrations and boxed examples, from New York to Jakarta, Johannesburg to Manila and Sao Paolo to Melbourne, *Splintering Urbanism* demonstrates the latest social, urban and technological theories, which give us an understanding of our contemporary metropolis.
