GreenFaith: Mobilizing God's People to Save the Earth Fletcher Harper

God is calling us to live differently. The challenges we face are imminent. *GreenFaith* provides vision, inspiration, and practical tools to help you build your faith while inhabiting a creation that is at risk. With honesty and candor, Fletcher Harper shows that it takes belief and practice, science and faith to sustain us and our planet. The book gives concrete examples and tips that will help people of faith and worshiping communities engage in Earth care—in bold, life-giving ways. Each chapter has questions to guide personal study and group conversation.

All bets are off if we go over the climate change cliff—a disaster greater than many Hurricane Sandys. There is no doubt that climate change is happening. While debated for years and despite some media reports to the contrary, the majority of people are ready to take action to avoid calamity. But what action is advisable or even possible? What can ordinary people do in the face of such staggering problems? Can or should faith communities play a part? Fletcher Harper shows how we can make a difference and make Earth a better world for all of us.
