Introducción a las matemáticas (Spanish Edition)

Angélica Chappe, Martha Zambrano, Diego Arévalo

Introducción a las matemáticas (Spanish Edition) Angélica Chappe, Martha Zambrano, Diego Arévalo
La cartilla Introducción a las Matemáticas, busca ser una guía de aprendizaje autónomo que, desde la matemática, promueva habilidades de lectoescritura para estudiantes de primer año de Universidad. El recorrido a través de conjuntos numéricos, propiedades de los números reales, ecuaciones, inecuaciones y funciones, considera inicialmente el uso de lenguaje simbólico como engranaje entre aspectos prácticos y desarrollos formales, para luego avanzar con el tratamiento esencialmente matemático y finalmente alcanzar el nivel de abstracción adecuado para plantear y resolver problemas en contexto. Presentar un tratado breve y elemental sobre algunas nociones y conceptos de matemática fundamental, es decir, aquellos conocimientos que todo profesional debe dominar y que resultan cercanos a cualquier entorno, es el espíritu de este documento.
