Marketing IT Products and Services Jessica Keyes

Characterized by lightning quick innovation, abrupt shifts in technology, and shorter lifecycles, the marketing of IT products and services presents a unique set of challenges and often requires IT managers and developers to get involved in the marketing process. **Marketing IT Products and Services** is written to help busy IT managers and marketing managers get up to speed quickly and easily on what's needed to develop effective marketing strategies and campaigns.

Focusing on the unique issues involved, this one-stop resource provides everything needed to understand the roles, responsibilities, and management techniques essential for the development of successful strategies. It covers strategic market planning, targeting markets, researching markets, understanding the competition, integrating market and sales strategies, nuances of global markets, developing marketing budgets, pricing, and implementing marketing campaigns. A plethora of appendices included on the book's CD allows you to get up and running right away.

Aside from a complete marketing glossary, two complete marketing plans—one for a hardware product; the other for a software product—enable you to bypass the "scut" work of developing a marketing plan so you can focus on the creative aspects of marketing. Because a marketing plan is closely aligned with an organization's business and strategic plans, this book provides you with templates for both of these, as well as a template for that all-important business plan executive summary.

The CD also features loads of fill-in templates including customer and competitor analysis surveys, sample press releases, letters of agreement, demographic and target market worksheets, and cost benefit forms. If you have a marketing need, this book has an effective template to meet that need.

From reader reviews:

Ramona Wegener:

This book entitled Marketing IT Products and Services to be one of several books in which best seller in this year, that's because when you read this guide you can get a lot of benefit in it. You will easily to buy this specific book in the book retail outlet or you can order it by using online. The publisher of the book sells the e-book too. It makes you quickly to read this book, because you can read this book in your Touch screen phone. So there is no reason for your requirements to past this guide from your list.

Frederica Dawkins:

A lot of people always spent their free time to vacation or even go to the outside with them household or their friend. Are you aware? Many a lot of people spent they will free time just watching TV, or perhaps playing video games all day long. If you need to try to find a new activity this is look different you can read any book. It is really fun for yourself. If you enjoy the book you read you can spent the whole day to reading a guide. The book Marketing IT Products and Services it doesn't matter what good to read. There are a lot of those who recommended this book. They were enjoying reading this book. In the event you did not have enough space to create this book you can buy typically the e-book. You can m0ore very easily to read this book out of your smart phone. The price is not very costly but this book offers high quality.

Lynn Bailey:

The reason? Because this Marketing IT Products and Services is an unordinary book that the inside of the publication waiting for you to snap the item but latter it will jolt you with the secret it inside. Reading this book next to it was fantastic author who all write the book in such incredible way makes the content on the inside easier to understand, entertaining way but still convey the meaning fully. So , it is good for you for not hesitating having this any more or you going to regret it. This unique book will give you a lot of positive aspects than the other book have got such as help improving your talent and your critical thinking way. So , still want to delay having that book? If I were you I will go to the reserve store hurriedly.

Tanya Caggiano:

Can you one of the book lovers? If yes, do you ever feeling doubt while you are in the book store? Attempt to pick one book that you never know the inside because don't determine book by its protect may doesn't work is difficult job because you are frightened that the inside maybe not because fantastic as in the outside appearance likes. Maybe you answer may be Marketing IT Products and Services why because the wonderful cover that make you consider with regards to the content will not disappoint you. The inside or content is fantastic as the outside or even cover. Your reading sixth sense will directly direct you to pick up this book.
