The United States and the European Trade Union Movement, 1944-1951

Federico Romero

The United States and the European Trade Union Movement, 1944-1951 Federico Romero

In this study of U.S. postwar policy toward the reconstruction of Europe's trade unions, Romero demonstrates the weaknesses of the American strategy to reshape European societies in the likeness of American social pluralism. Using Italy as a case study, he shows how the U.S. government cooperated with the American Federation of Labor to support friendly anti-Communist unions.

Originally published in 1993.

A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

"A superb integration of national and international history.--*Journal of American History*

"A fascinating and scholarly study in cold war history, equally expert in both American and Italian history.--*International History Review*

"Must reading for all who seek a more sophisticated understanding of how countries interact, each under the influence of its own political culture.--*American Historical Review*

"[Romero] has provided an excellent synthesis and successfully blended the international and internal, Italian and American facets of a complicated and important story, and done so in a readable and interesting text.--
Sidney Tarrow, Cornell University
