It is claimed that Zionism as a meta-narrative has been formed through contradiction to two alternative models, the Canaanite and crusader narratives. These narratives are the most daring and heretical assaults on Israeli-Jewish identity. The Israelis, according to the Canaanite narrative, are from this place and belong only here; according to the crusader narrative, they are from another place and belong there. The mythological construction of Zionism as a modern crusade describes Israel as a Western colonial enterprise planted in the heart of the East and alien to the area, its logic and its peoples. The nativist construction of Israel as neo-Canaanism demands breaking away from the chain of historical continuity. These are the greatest anxieties that Zionism and Israel needed to encounter and answer forcefully. *The Origins of Israeli Mythology* seeks to examine the intellectual archaeology of Israeli mythology, as it reveals itself through the Canaanite and crusader narratives.
