“The only husbands who will not talk to their wives are the ones who do not believe they will be listened to. If your husband believes you will listen to him, he will talk to you.” In this eye-opening new book on communication—or its lack—in marriage, Bob and Cheryl Moeller help couples break free from behaviors that hinder heart connections. The book provides for wives such practical insights as the seven most common reasons husbands don’t talk to their wives; the five most common mistakes wives make when talking to their husbands; and seven winning strategies wives can use to get their husbands to open up. In *Getting Your Husband to Talk to You*, the Moellers offer wise counsel that will help wives empower their husbands to share their hearts, draw closer than ever, and enhance their marriage bond.
