Reverse Migration in Contemporary China: Returnees, Entrepreneurship and the Chinese Economy (Politics and Development of Contemporary China) Huiyao Wang, Yue Bao

The authors investigate the phenomenon of highly skilled Chinese returnees and their impact on the development of the Chinese economy and society, and on the transformation of China into a key player on the global stage. They analyse the reasons why Chinese entrepreneurs choose to return to their native country and how their overseas experience shapes their attitude and behaviours. This study is solidly grounded on fresh data from online and offline surveys and on evidence collected in over 200 interviews of successful returnees entrepreneurs. These global Chinese returnees have contributed to the rise of Chinese economy into a global powerhouse and this continuing brain movement and circulation will have much more future implications and impact for China's exchange with outside world.
