Basiswissen Requirements Engineering: Aus- und Weiterbildung nach IREB-Standard zum Certified Professional for Requirements Engineering Foundation Level (German Edition) Klaus Pohl, Chris Rupp

Requirements Engineering (RE) ist eine Schlüsseldisziplin der Systementwicklung und entscheidet maßgeblich über den Erfolg oder Misserfolg eines Projekts. Fachleute, die in diesem Bereich tätig sind, sollten über ein gesichertes RE-Grundlagenwissen verfügen - so wie es im Lehrplan des "Certified Professional for Requirements Engineering" (CPRE) festgelegt ist.

Entwickelt und eingeführt wurde das CPRE-Zertifikat vom "International Requirements Engineering Board" (IREB e.V.). Der IREB e.V. setzt sich für die Verbesserung der Requirements-Engineering-Praxis sowie für eine qualitätsgesicherte und standardisierte Aus- und Weiterbildung ein.

Dieses Lehrbuch für die Zertifizierung zum "Foundation Level" (Version 2.2) des CPRE wurde von IREB-Mitgliedern geschrieben, die an der Entwicklung des Lehrplans beteiligt waren. Es behandelt im Einzelnen die

- Ermittlung
- Dokumentation
- Prüfung und Abstimmung
- Verwaltung

von Anforderungen sowie die Werkzeugunterstützung.

Das Buch eignet sich zur individuellen Vorbereitung auf die Zertifizierungsprüfung und als Begleitliteratur zu den entsprechenden Vorbereitungsschulungen.

Die 4. Auflage wurde überarbeitet und ist konform zur aktuellen Ausgabe des IREB-Lehrplans Foundation Level Version 2.2.

Über dem Leserkasten:

Ergänzende Informationen zum Buch, zum IREB e.V. und zum CPRE finden sich unter:
