Introducció a la topologia (Catalan Edition) F. Mascaró

La topologia és la branca de les matemàtiques que es dedica a l'estudi d'aquelles propietats dels cossos geomètrics que no depenen de les magnituds i que són invariants per transformacions contínues. En aquest llibre, basant-nos en l'experiència prèvia sobre la topologia de la recta real, introduïm primer els espais mètrics, com a pas previ a l'abstracció d'espai topològic i a continuació estudiem tant les propietats topològiques més importants (connexió i compacitat), com la completesa en el cas d'espais mètrics.
