Exciting the Industry of Mankind George Berkeley's Philosophy of Money (Archives internationales d'histoire des idées) C.G. Caffentzis

Exciting the Industry of Mankind is the first comprehensive book about George Berkeley's revolutionary views on money and banking. Berkeley broke the conceptual link between money and metallic substance in *The Querist*, a work published between 1735 and 1737 in Dublin, consisting entirely of questions. *Exciting the Industry of Mankind* explains what economic and social forces caused Berkeley to write *The Querist* in response to a major economic crisis in Ireland.

Exciting the Industry of Mankind falsifies the view that Berkeley has nothing to tell us about our present and future social and economic life. For the 'idealism' Berkeley found in the money form is now becoming a fact of global economic life, when 'xenomoney' and 'virtual money' exchanges begin to dwarf commodity transactions, and the future becomes the dominant temporal dimension of economic activity.

Philosophers, historians, cultural theorists, economists and lovers of Irish history will be interested in this volume.
